

To all of our patients we would like to say thank you! Your patience during this unique and unforeseen time is truly appreciated!

We are currently seeing all healthy appointments in the office, and we will continue to offer virtual visits as a method of care for our sick appointments.

Macomb Pediatric Associates PC is following CDC guidelines and has implemented additional cleaning and screening processes. These processes include screening all patients and staff for fever or other Coronavirus symptoms prior to entry into the office. Also, we are requiring all staff and patients to wear masks and continuing to maintain appropriate social distancing.
